

TASKS

SESSION EIGHT

Task 1

Implement a Custom ListView with ImageView and Two TextViews:

Create an Android application that displays a list of items using ListView. Each row should consist of:

- 1 ImageView for an icon
- 2 TextViews for a title and a description

Task 2

Create an application that displays a recycler view with each row consisting of:

- o ImageView
- o 2 TextView

BOUNS!!!!

Any added elements -> BOUNS

like

3	three	<input type="checkbox"/>
4	four	<input checked="" type="checkbox"/>
5	five	<input checked="" type="checkbox"/>
